## “HIGHWAY TO HEAVEN (PART XIV)”

In this issue we are going to continue to talk about the different things we encounter as we travel on the highway of life, and the many different signs the Lord gives us to let us know of potential problems and situations that are approaching.

As I travel on the highways, it is not unusual for me to see a crash of two or more vehicles, causing at times incredibly long delays in traffic. Many times I think about the people in the crash and wonder if they were seriously hurt, the pain they could be feeling, and the sense of loss they may be experiencing. Sometimes *people in their rush to get to their destination, try to move too fast, make rash decisions* and pass others in the process, *without considering the consequences*. Whenever people do this, they not only put their own lives at risk, but the lives of others as well. I have seen this happen in the highway to heaven too. When we exceed the spiritual speed limit God has set for specific events in our lives, and *force our way* ahead of schedule we may cause a wreck, putting in danger not only our lives, but also the lives of others.

This lack of patience and foresight when making decisions in the kingdom of God can be extremely detrimental, causing untold misery to our loved ones, others, and congregations in general. This may cause long delays in reaching our destination, or completely cancel that part of our trip. God has always had men who were consulted by kings and leaders whenever major decisions were about to be made, because of their keen discernment, foresight

and wisdom in spiritual matters (*I Chronicles 12:32*). There are those today who have these same gifts and abilities to help pastors and leaders make important key decisions in the transition.

As I travel, I have seen many junkyards on the side of the highway. Many times I ponder and think: *“these are those that never made it.”* There are more junkyards on the side of heaven’s highway than anywhere else. They are filled with many wrecked lives and ministries, wasted talents and abilities and unfulfilled dreams and visions. There are more Christians outside of the Church than there are inside. Many of them gave up on the system, and are out there collecting rust in some spiritual junkyard. But those wrecked cars can be fixed. If you take them to a body shop, get those dents fixed, get that bumper straightened out and put some primer and new paint on them, you can get them back on the highway again. Isn’t God merciful?

The problem is *many churches do not want to do any bodywork*. They just want the new shiny cars, or just do a little maintenance work. Churches do not want those that are divorced there, drug addicts, drunkards, prostitutes, homosexuals, the demonized and backsliders. Churches have become intellectual, anti-supernatural, computerized nurseries for immature Christians. *The Church is going through a re-formation and most Christians don’t even know it*. We are leaving the Church Age and entering the Glorious Kingdom Age. Blessed are those who are ready and willing to accept the challenge to enter in.

# Ministry Report

**B**less the Lord, oh my soul, and all that is within me bless His holy name! As I write this newsletter, I am taking a few days off from my busy schedule with my family in southern Florida, enjoying our summer vacation. As I look and behold the awesomeness and beauty of God's creation, I can't help but love and worship Him. Creation speaks louder about the existence of God than any theological argument. How can anyone not believe that there is a God?

However, the weather continues to behave strangely all over the globe. Everyone seems to have a feeling that something is amiss. Right now, where we are staying, we are experiencing 60 mile an hour wind gusts on and off. Storm clouds appear out of nowhere, it rains and thunders for about 30 minutes and then the sun is shining again. This process is repeated several times during the day. Not many people are bathing in the sea due to reports of many shark attacks very close to shore, in as little as six feet of water. In some places, abnormal heat waves are being reported. Earthquake activity on the west coast is extremely high. We can expect this to intensify in the future, as *the earth continues to groan and convulse in anticipation of the approaching Day of the Lord.*

On the other hand, I am happy to report that we have been having some incredible visitations from the Lord in our meetings. This is not the usual open heavens atmosphere that we have experienced in the past, where God moves to save, heal, bless and deliver His people as we minister to them. *This is a sovereign move of the Spirit of the Lord where His glory manifests in our midst, and He takes over.* As it takes place, many cry out of conviction, others because of the love and the joy they are feeling in His presence. Miracles and mighty signs and wonders are happening. Gifts of the Holy Spirit are being activated in the saints as the Glory of God manifests. Messages in tongues are being given; prophetic messages; eyes and ears are being opened into the spiritual realm. *We are seeing*

*incredible manifestations of the presence and power of the Lord in our midst.* The end time harvest is upon us. Blessed are those who are called, chosen, and faithfully submitted to God's process in their lives, for they shall be a part of it.

We continue to conduct leadership seminars and workshops to train and equip leaders in different churches all over this nation and other countries as well. This is the commission God gave us: to prepare the emerging army, identify and release their abilities and callings so they can function and fulfill their destinies in the kingdom of God. We have written several booklets on simple foundational teachings such as: *"Water Baptism"*, *"Baptism of the Holy Spirit"*, *"A Father's Heart"* and are presently putting together a *"Home Bible Study Course"* and a new believer's training manual titled: *"Foundational Principles For The New Believer"* to be used in discipleship classes. We are translating these materials to Spanish, and will be using it in Central and South America, as well as in the U.S.

We still have in stock copies of our book titled: *"Introduction To Signs And Wonders"* which we are using in training seminars. We also are in the process of finishing our new CD that will be coming out in a couple of months. This is the third prophetic rap CD to be produced by this ministry, along with *"Bone To Bone"* and *"Tuning In To Reality"*. These materials may be obtained by writing to us or through our website.

In the next three months we will be traveling to do ministry in Ohio, Florida and Idaho. Please continue to hold us up in your prayers as we endeavor to obey the Lord in what He has commissioned us to do. We don't want to miss His perfect will for our lives, for we know that it is there where He will manifest His glory and blessing. We love and appreciate those of you who have stood and communicated with us so faithfully in the past. May God protect you and continue to bless you. *Shalom!*
