## “HIGHWAY TO HEAVEN (PART XV)”

**W**e will continue talking about the different things I have seen and experienced through the years while traveling on this nation’s highways on my way to the next preaching engagement. There have been times when I have traveled without my family, and except for the abiding presence of the Holy Spirit, I have been all alone in the unending vast highways. As I thought about it, I realized that is what many men of God have felt and endured for years as they try to obey the Lord and do His will.

*Usually, we travel these roads alone.* No family member or Christian friend is really able or willing to listen to the truths that we have to share. And even if they were able and willing to listen to us, I am not sure they would be able to understand. As I travel on the roads, I see the sign that reads “*uneven pavement ahead*” and before I even have time to process the information, I feel the sound of my tires rubbing, bumping and climbing the higher paved road. I think that is how many times I feel as I try to relate things to others in the ministry.

*Because people are at different levels in their Christian maturity and spiritual perception,* at times it becomes extremely difficult when you try to communicate, most of the times feeling the rubbing and bumping in *what I will call the uneven pavement syndrome.* It becomes very difficult to drive in those road conditions. Likewise, it is very difficult to work or have a productive relationship with others who do not agree with us or may be at a

different spiritual level than we are. (*Amos 3:3*)

Revelation usually comes to most ministers very slowly, especially if they have been in ministry for many years. The reason lies mostly in their lack of ability to adjust or change their wineskin (mindset or point of view). *We are creatures of habits, and old habits are very hard to break.* After all, what worked for the last twenty years should work today, right? Wrong! As I have stated before, *we are in the middle of a Christian Reformation that will redefine our concept of what Church is, and its role in the Kingdom of God.* Many will refuse to climb the higher pavement on the road that is being built by the Lord for His people, and as a result will have to drive on roads that are full of potholes and debris; a road that was once good enough to drive is now being replaced by a new that will allow us to travel faster and smoother.

*Right now the Lord is releasing new blueprints for new roads that are being built in the Kingdom of God.* The blueprints are being designed by apostles and prophets by divine inspiration and in accordance to God’s Word. This is being done for the benefit of the Church. The Church was ordained by the Lord to be the spiritual scaffold whereby His body is taught, trained, disciplined and then released into their callings and ministries by the presbytery of the local church. Local Churches need to be spiritually connected with godly apostles and prophets that can be part of the presbytery and release the anointings and ministries in the house.

# Ministry Report

**B**lessed be the God of my salvation, who gives me the strength of a buffalo and the wings of an eagle; who keeps my feet from stumbling, and fills my heart with peace and joy. To Him be the praise, the honor and the glory forever and ever, amen! It has been a busy summer, in more ways than one. Many good things have been happening in the kingdom of God, but on the other hand, horrible and disastrous things have been happening at an incredible rate and magnitude all over the world, signaling we have entered into the terrible times predicted long ago by God's prophets. *The earth continues to groan and convulse in anticipation of the approaching Day of the Lord.* Category 4-5 hurricanes Katrina and Rita devastated New Orleans and the Gulf Coast States; terrible hurricane and mudslides in Guatemala, Salvador and Mexico; the massive 7.6 earthquake and over a dozen severe aftershocks (5.5-6.5) in Pakistan that has claimed over 30,000 lives; the terrible earthquake in Peru that has left thousands homeless, the volcano in Ethiopia that has displaced tens of thousands; these have all happened in just the past two months! *The birth pangs of the end of this age are getting closer and closer together.* As Christ warned us, we are not to be alarmed at these things, but we do need to watch and be aware of the times we are in.

In our last newsletters, I have shared with you some of the things the Lord has shown me concerning these things that are coming upon the world. We have witnessed only the beginning; the things that are approaching are too grievous and horrible to share. God's people are not prepared spiritually for these things, and my heart is burdened. As I watched the news, I saw the pain and suffering of the people in the midst of the devastations and my heart wept. *For the second half of October, pray without ceasing; it will be a very dangerous time for this nation during the Muslim month of Ramadan ending November 3.*

Going into a more positive topic, we had great meetings in the summer. In July we were in Ohio and had a powerful move of God in the services there, with many prophetic words going forth for the churches, as well as individually. It is really exciting to see what the Lord is doing there. We also were involved in a youth camp in Madison, Florida where the Lord moved in a great way among the young people, healing some and touching others. There was a young girl who is the leader of the drama team, and she had a lot of pain in her severely sprained ankle. She was barely able to walk on that foot. When the Lord healed her miraculously, she stood on that foot as she cried and praised God for her miracle. Afterwards she walked back and forth without any pain thanking and praising the Lord for her healing. *God still heals and does miracles.*

In August we conducted a revival and a one day seminar in Nokomis, Florida. The Lord moved gloriously during service and we had a wonderful time during seminar. The people there are really hungry and were soaking in everything during the seminar, speaking highly of the kind of leadership they have in that house. Many were touched and healed during the service Sunday. Finally in September we went to Idaho for the second time this year not only to conduct a revival, but also a three day seminar. Once again the Lord moved mightily during the revival services, healing some, saving others and touching many. The three day seminar was well attended and there was prayer and impartation throughout the seminar to all those in all those present. We also had a glorious Spanish service for the first time on Sunday night, and many were saved and healed by the Lord. Some good things are about to happen in that area. We are getting ready to travel to Houston, Texas and then in November we will be traveling to Pennsylvania. Please pray for us for the rest of the year that we may obey the Lord and do His will. Shalom!
