“THE GOOD, THE BAD AND THE UGLY”

A wake you that sleep, and arise from the dead, and Christ shall give you light. See then that you walk carefully, not as fools, but as wise, redeeming the time, because the days are evil. Therefore be not unwise, but understanding what the will of the Lord is. Eph 5:14-17

My heart is full of excitement and anticipation for the great things that are about to happen in 2008 and beyond, but at the same time I am heavy burdened for the things that I must share with you. It is a difficult and unpleasant thing to do, but I will try to share them with you.

The things I am about to say, I do so with great humility and trepidation, not to scare but to warn you. *The Lord has shown me things that bring me hope and excitement, but I have also been shown things that cause me great concern.* Many things are beginning to take place on this country and overseas that will only escalate in the near future. It will test the faith of many, shake their foundations and cause them to surrender their lives to God or turn their backs on Him, embracing the apostasy sweeping the world.

God can still postpone what is coming and heal this land if His people would pray, repent and turn away from sin. *The Lord has already given us a reprieve on the war in Iran,* as it seems that plans for an attack have been pulled back after inspectors found no evidence of a nuclear program there. Many have been praying for years, repenting on behalf of this nation for the atrocious sins committed in the past and present on this land. God has promised to send a double portion outpouring of His Spirit to this nation if His people would heed His warnings, repent and sincerely turn to Him.

All the innocent blood that has been shed on this land, especially in the last several decades through abortion, satanic rituals and murders has opened multiple gates of hell allowing a flood of all kinds of demons to come in and invade this nation. Without a doubt, *the United States is being taken over by occult forces* and very few seem to be aware of it in a society that is oblivious to the truth.

This pains my heart, for I love this country. From the Stonehenge replica in the Pacific Northwest, to the Luxor Hotel Casino Pyramid in Vegas, to the Georgia Guide Stones, these occult structures are being built all throughout the land at an alarming rate. Occult names, structures and symbols in its various forms are being propagated continually through the use of the entertainment industries and mass media to brainwash the American people. That may explain why so many strange and unusual things are happening.

While this is going on, at the same time *we are seeing a relentless attack on the person and divinity of Jesus Christ.* “Their” goal is to undermine the foundation of the Christian faith whose cornerstone is Jesus. If they succeed, the people will then be ready to be seduced into believing a lie that the enemy has been preparing for a very long, long time. Some books and movies portray Jesus as having sexual relations with Mary, while others portray Him as gay.

One well known TV ministry is now saying *that Jesus never claimed to be the Messiah,* only the Lamb of God. This acquits Jews from rejecting the Messiah. Although I love the Jewish people as much as anyone else, to say that they do not need to accept Yeshua as their Messiah to be saved, is a very serious heresy and goes against what the Bible says.

Another leaven that is quickly spreading throughout many churches is the belief *that Jesus was not God manifested in the flesh;* only the son of God. They claim that is the reason why He had to be baptized; to be cleansed from sin. This is such a dangerous heresy that it subverts the very foundation of the Christian Faith. These doctrines have been around for a long time, but it seems that now they are all making a strong come back at the same time.

Several months ago, the Lord spoke to me and said: *“there is a new religion coming”.* The things that He showed me are coming, have led me to believe that this is the strong delusion spoken of by Paul in 2 Thessalonians 2:11 that would cause many to believe a lie. We are not able to disclose many things that God has revealed to us because frankly, most of the people could not handle it due to the religious leaven that hinders them from receiving truth.

A few years ago, I was shown in a vision of the night some things that would transpire in the future, so terrifying that when I woke up, I was shaking and drenched in sweat. I kept this to myself for three years, but the Lord has now released me to share it with His people. *The visions and dreams have intensified* to the point where we just recently added a new section to our website dealing with that subject. You can read them by visiting our website posted on this report.

The people of the United States are being warned of severe judgment to come if they do not repent. (1) Fifty percent of the contiguous United States is in a condition of severe drought. Recent reports have indicated that thirty six states now face water shortages. In Georgia the lakes are drying up and the city of Atlanta now has less than a ninety day water supply, and no plan for solving the problem.

Ministry Report

Everywhere in the world we are seeing that ***the birth pangs are intensifying***, as there is an increasing amount of weather related phenomena. There was severe flooding in parts of Mexico at the beginning of 11/07, which displaced a million people. (2) In Bangladesh, a very unusual cyclone hit a heavily populated Moslem area, killing 15,000 people. (3)

Meanwhile, many significant earthquakes of magnitude four or greater, continue to shake the world averaging 300 per month, while volcanoes continue to wake up and erupt all over the world. On 11/18/07, a United Nations panel of scientists issued this official report: "Unless something is done about the radical climate changes right now, soon the earth will lose a third of its plant and animal life." (4)

Scientists in the U.S. just presented the most dramatic forecast for the disappearance of Arctic sea ice yet. Their latest modeling studies indicate that northern polar waters could be ice-free in summers within just 5 years. They said they that they had underestimated in previous projections the processes now driving ice loss. They went on to say that actually their projection of 2013 is very conservative and it may happen much sooner. (5)

Scientists have estimated that when the arctic ice melts, it will cause the sea level in the oceans to rise as much as twenty three feet, causing the flooding of low lying cities on sea coasts all over the world, leaving hundreds of millions of people without homes and livelihood. This event just by itself, could tax the economies of so many countries of the world, that it could cause an environmental and political nightmare of enormous catastrophic proportions.

The government is not saying anything for obvious reasons. However, the powers that be are using the entertainment industry to slowly leak out information about this, through Hollywood movies such as *Deep Impact*, *The Day After*, *Armageddon*, *Earthquake*, *Tsunami* and many others thus preparing the masses subconsciously for what may be coming in the future.

Add to this list the real threat of terrorist attacks, which could very well happen at any moment in a number of major cities throughout this country, as well as the Bird Flu Pandemic, which has now been confirmed that it is being transmitted human to human in Asia and Indonesia, and specifically in countries like Pakistan and Australia and ***we have the makings of what could very well become the perfect storm.*** (6)

Instead of playing church and maintaining the status quo, the pastors and the spiritual leaders in Churches need to start to ***share with God's people the seriousness of the times.*** We need to start training and preparing the people properly. They need to be trained spiritually, but also in the natural. There are courses available to churches for this purpose from FEMA, CISM, CERT and IFOC and now would be a good time to start before it is too late.

People need to understand that when (not if) any of the things mentioned above takes place, the infrastructure of the nation will be severely affected, leaving people to fend for themselves for weeks. If we have learned anything from Katrina it was that when disaster strikes, the government will not be able to respond that quickly to the needs of the people. Therefore, we need to make preparations for our family and friends beforehand.

Everybody thinks that there is plenty of time, and there may well be, but preparation is like insurance: you only

need it when you need it; if you do not have it when you need it, your goose is cooked. It is not that difficult to make preparations, if you do it beforehand while things are normal and there is still time.

Some of you will react to this with sarcasm and unbelief, considering it farfetched; but I do promise you, some of these things will take place. Maybe not this year or the next, but it will happen. It will be all worth it if people will heed the call, repent and start to do that which is right by building on solid rock and not on shifting sands.

Others may say that the Holy Spirit will lead them when the time comes. The problem I have with that argument is that most Christians are not led by the Spirit, let alone be able to hear what God tells them to do. If you prepare spiritually and in the natural and nothing happens, you will not have lost much. On the other hand, if you ignore this warning and these things do take place, it will cost you, your family and God's people dearly.

The good news is that there is coming a glorious double portion outpouring of His Spirit upon the earth. ***There is a glory cloud approaching fast. We are about to see the greatest harvest of souls the world has ever seen.*** This will happen simultaneously with many of the events mentioned above taking place. That is why every church needs to start training its people how to deal with crisis, and minister to those in need at the same time. Every church needs to have a food pantry well stocked in order to help those in need when these things happen. If ready, we will be in a position to help many people and lead them to Jesus in the midst of a crisis.

We need to start praying for the upcoming presidential elections of 08. This may well become the most important elections in the history of this nation. The candidates in both parties with few exceptions, seem to be very liberal and willing to sell the heart and soul of this nation for the sake of the NWO. However, God can work a miracle.

The Lord continues to move in our meetings. In the month of November we went to Fort Smith, Arkansas and held a seminar in a church there on the Four Levels of Intercessory Prayer. This was our first trip to that part of the country. The people were extremely hungry, and the meetings were well attended. There was much impartation that took place, as the Spirit of the Lord moved in our midst throughout the meetings healing some, and touching many. We helped the church to start its IPT Team, and look forward to great things happening there.

We are planning a trip to Honduras in the middle of January. Those of you who helped us, you know who you are, thank you so much. God bless you and prosper you in the New Year 2008. Shalom my friends.
